

# Barnacles, Bugs, Birds, and Beans

## Purpose:

- To develop a set of web resources about a particular group of living organisms

## Procedure:

- get *GROUP* from teacher
- go to <http://www.kn.pacbell.com/wired/fil/lognew.html>
  - o follow instructions for setting up a hotlist
  - o print 2 copies of password page; give 1 copy to teacher
  - o send teacher the URL of the hotlist
- find **12** websites associated with your *GROUP*
  - o Evaluate website to determine its reliability and value
  - o Follow instructions on Filamentality for adding links
  - o Write a 1 paragraph description of what the site is and what information can be found at the site. Include details!
  - o Categorize sites (follow instructions on Filamentality)
- In the introduction, write a 1~2 paragraph description of the *GROUP*
  - o you may use bullets (see teacher for information on how to code the bullets)
